# Inner Circle Overview

## Inspiring Leading Companies

### About the Inner Circle

The Leaders Inner Circle provides Industry Partners, Industry Experts, and Members with access to preferential products and services offered by their colleagues from within the network.

Given the nature of the various organizations within the Network and their products, it may not be suitable for everyone to put forward an offer. However, it will benefit all Members to access the offers available and will provide organizations the opportunity to obtain a second opinion on areas within their business.

Offers to be included will need to provide a genuine benefit to other Leaders participants, and typically be something that can be used at any time during the Series. When developing your offer, it is recommended that you review some of the existing Inner Circle offers detailed below. This will assist with understanding the types of offers that could be developed for your organization and the best way to frame it.

Leaders will review all submitted offers for their suitability and likelihood of being utilized to ensure the greatest benefit to all participants.

REACH YOUR PEAK.
